

Wins Soft

a complete solution for the textile industry

Features

- ERP Solution for Home Textiles - Home Textiles Production Management
- Advantages of this software
- Textile Costing Software
- Textile Design Software (Woven Design)

Products

1. ERP – Software for Home Textiles
2. ERP – Software for Spinning Mills
3. ERP – Software for Weaving Mills
4. ERP – Software for Textile Processing Mills
5. Textile Costing Software
6. Textile Woven Designing Software

ERP Solution for Home Textiles - Home Textiles Production Management

▶	Order Entry Order Planning, Proforma invoice, Packing List, Invoice, & Work Order Report
▶	Work Order Registration Production Planning
▶	MRP (Material Requirement Planning) and Allotments Requirement of yarn, fabric, accessories, packing materials, Price fixing for all purchases
▶	Stock Maintenance Yarn, fabric kora & color, Made ups, Accessories, Packing material
▶	Stock Issues / Transfer / Sales Yarn, fabric (kora & color), Made ups, Accessories, Packing material
▶	Purchase Generating Purchase Orders for all depts. like yarn, fabric, made ups, accessories & packing material
▶	Yarn Dyeing Dyeing order issue, Receipt, Inspection, Return, Payment, & status.
▶	Weaving Weaving order issue, Receipt, Inspection, Return, Payment, & status.
▶	Stitching Stitching order issue, Receipt, Inspection, Return, Payment, & status.
▶	Jobwork Embroidery, fabric dyeing, printing, zero zero finish etc.,) Order Issue, Receipt, Inspection, Return, Payment, & status.
▶	Final Inspection
▶	Packing
▶	Sampling
▶	Textile Designing & Costing
▶	MIS (Management Information System) Order Status & Production Status

Advantages of this software

Management gets all the Department information regarding Order Status immediately on their desktop/ laptop in a Single click.

- Reduces the Man power
- Reduces the Material Wastage
- Reduces the time & mistakes
- Increase the man power efficiency
- Reduces the stress & strain on the work to the employee & employer
- Account closure of each departments can be done immediatly
- Management can get the information like Material Issue Receive & Balance statements from each department.
- All Stock statements can get instantly, etc.,

On implementation of our ERP programme management questions :

Before the ERP Implementation	After the ERP Implementation
What is the status of the particular order or particular Department?	Why this order's of particular departments is getting delay from planned date or why these goods are Rejected or not inspected? And When these orders will be completed.

Textile Costing Software	
Provides Accurate Costing for :	
▶	Fabrics Gada, plain, yarn dyed, terry, sear sucker, chenille, extra warp / weft fabrics and many more.
▶	Home Textiles Aprons, kitchen towels, pot holders, gloves, bread basket, table clothes, runner, napkins, cushion covers, place mats, bed covers, pillow covers, duvet covers and etc.,
▶	Garments Mens, womens, kids wear and etc.,
▶	Reports Buyerwise / countrywise / sortwise With images / without images With any currency Yarn requirement in colourwise / countwise / workorderwise in kgs / bundles & knots.

► **Stripe & Check Pattern Designing**

[Click here to view](#)

- Easy to prepare warp & weft patterns with specified group of colours. With season colours like Summer, Winter, Fall, Spring etc.,
- Colour pattern reports suitable for Warping & Weaving.
- Easy to prepare centerline pattern to reduce cutting wastage while garment making & curtain designing.
- Can save the colour list or group & patterns separately.

► **Dobby & Jacquard Designs**

[Click here to view](#)

- Creation of single and multilayer fabric weaves with drawing order and lifting (peg) plan. Image processing, Weaves scrolling, Weave filling, Float control, Graph printout, Jacquard design simulations etc.,
- **REPORTS : DRAWING ORDER & LIFTING IN TEXT / GRAPH MODE.**

► **Fabric Simulations**

[Click here to view](#)

- Stripe & check fabric simulation in any weaves like plain, twill, satin, etc.,
- Fabric simulation for face & back fabrics with required construction.
- Fabric simulation can be saved in Bmp / gif / jpg format to forward buyers by e-mail to get approval.
- Auto Generation of new design simulation with many parameters like changing weave, colour groups, counts, pattern values etc.,

► **Additional Features**

- GSM Convertor (Generate many constructions for required GSM)
- Weaving possibilities of given construction
- Textile Dictionary
- Yarn / Fabric Count Testing
- Textile Conversions
- Flexible Operation
- Versatile Reporting
- Multi support printing

Training Institute

- # 0/1, Gowtham Towers, 3rd Floor, Kumaragurban street, Sathy Road, Backside to Lotus TVS Showroom, ERODE-638 00.
- # 6 A/2, J J Nagar, Near Astalaskhmi Temple, Karattur, Gobichettipalayam, Erode- Dt.
- # 2, Sengunthapuram Main Road, K.M.S Complex, 1St Floor, Karur- 2.

Offers you to put your imagination, Skill, Creativity, Knowledge to the best use of the following courses.

Courses	Duration
Advanced Diploma in HOME FASHION AND TECHNOLOGY	1 Year
Advanced Diploma in HOME FASHION DESIGNING	6 Months
Advanced Diploma in HOME TEXTILES TECHNOLOGY	6 Months
Computer aided HOME TEXTILE PRODUCTION MANAGEMENT	2 Months
HOME TEXTILE EXPORT MARKETING AND MERCHANDISING	3 Weeks
Computer aided TEXTILE COSTING	2 weeks
Computer aided TEXTILE DESIGN – CAD DOBBY	3 weeks
Computer aided TEXTILE DESIGN – CAD JACQUARD (HOME TEXTILES)	1 month
Computer aided TEXTILE DESIGN – CAD JACQUARD (COTTON AND SLIK SAREES)	1 month
Computer aided TEXTILE EXPORT DOCUMENTATION	2 weeks
Data entry operator training – purchase, dyeing, weaving, stitching, jobwork etc.,	each dept 1 week
Home Textile Costing - Manual	1 Month

These courses are in demand as more and more manufacturers and exporters are looking for the professional persons.

We provide TEXTILE TESTING facilities and Consultancy services.
